

Asia Pacific Association of Allergy, Asthma and Clinical Immunology

APAAACI Immunotherapy Committee

Co-Chair:

Chang-Keun Kim, MD, PhD

Asthma & Allergy Center

Inje University Sanggye Paik Hospital

Seoul, Korea

Objectives:

1. Collating information on the clinical application of immunotherapy principles, procedures, and techniques in the Asia Pacific (AP) region.
2. Creation of consensus guidelines using the collated information.
3. Increasing the knowledge base of immunotherapy “best practice” through dissemination of consensus guidelines.

Upcoming Projects:

1. Survey of immunotherapy application (e.g., SLIT, SCIT) in clinics and hospitals in the AP region. Questionnaires answered by healthcare providers (i.e., doctors and/or nurses)
2. Survey of patient satisfaction with immunotherapy application. Quality-of-life (QOL) questionnaires answered by patients and/or primary caregivers.

Resources:

All relevant funding sources will be accepted, including industry and academia.

Timeline:

December 2019: Commencement

May ~ June 2020: Electronic surveys

January 2021: Publication of position paper

Asia Pacific Association of Allergy, Asthma and Clinical Immunology
